Work

ServiceNow Visual Product Designer, Brand Studio

(May 2023 – Present)

> Horizon Design System Icon & Illustrations

Led unification of 200+ multi-colored icons across ServiceNow's Service Portal, collaborating cross-functionally with PM's and designers to audit, update, and standardize icon usage patterns.

Delivered 800+ utility icons, 100+ illustrations, and established design guidelines for Horizon: ServiceNow's refreshed design system.

Designed visual guidelines and created reusable components for Horizon.com's "component"'s thumbnail and banner images to enable designers to reproduce and scale visual assets consistently across the website.

> Horizon 2.0 Motion Design

Defined and delivered icon and illustration animations, established guidelines for Horizon, ServiceNow's current products, and ServiceNow's newest AI product.

Established a precedent for icon animation patterns through iterative rounds of design exploration and working cross-functionally with research and stakeholders to develop creative interactions that improved product usability.

ServiceNow Product Designer, Visual Experience

(Mar 2022 – May 2023)

> Employee Workflows, NowX, & Design System

Detailed design specifications, contributed future-state vision work, and consulted cross-functionally for NowX (ServiceNow's incubation program), Employee Workflow teams, and the Process Optimization team.

Conceptualized and developed icon, illustration, and UI component design strategy for ServiceNow's Horizon Design System launch.

ServiceNow Associate Product Designer, Visual Experience

(JUN 2020 – Mar 2022)

> Lightstep Incident Response

Spearheaded visual experience from 0→1 as 1 of 2 design system product designers on Lightstep Incident Response, an all-in-one DevOps/SRE platform, reaching 40+ clients following MVP launch in March 2022.

Built a system of custom components and detailed design specifications to enable teams to adopt consistent and reusable patterns across the platform while maintaining alignment with ServiceNow's broader design ecosystem.

> Now Design Icons

Supported Now Design System team, streamlining icon requests and enhancements, and consolidating cross-functional icon sets into unified library to expand adoption across product ecosystem.

Education

University Of California, San Diego

B.S. Cognitive Science: Design & Interaction
